During public holidays, driving restrictions for heavy vehicles are implemented in several European countries, such as France, Germany, Poland and Austria, which negatively affects our transit times. The number of ferry slots available for freight traffic is also reduced, and in some cases, such as routes to the United Kingdom, some departures are even cancelled. On many ferry routes, passenger traffic is prioritized, which may lead to delays on traffic to and from the continent as well as Finland and the Baltic states.

To ensure that your shipments arrive on time, we kindly ask you to plan with longer lead times during weeks with public holidays, as transit times will in many cases be longer than usual.
